

Documentary Review of Inputs Suitable for organic farming

In order to meet the rising demands of professionals and private individuals, ECOCERT has implemented a process based on a documentary review for the assessment of the compliance of your products with Council Regulation (EC) 834/2007, the National Organic Program (NOP - USA) or the Japanese Agricultural Standard (JAS).

Why choose Ecocert?

This service provides you :

- > A **professional** service for a **fast & low cost option**.
- > The online **Input list** (www.inputs.bio) on the ECOCERT website: your products are listed as *"Suitable for organic farming"* via a dedicated ECOCERT web page.
- > Our dedicated website is available to all our certified clients as well as professionals of the organic industry and eco-friendly private individuals. The product listing service provides your company with **enhanced international exposure**.
- > The **following references on your labels and packaging**: "Suitable for organic farming in compliance with Council Regulation (EC) 834/2007 and/or NOP Regulation and/or JAS Regulation".
- > **Added-value for your brand image**: the expertise of a major worldwide organic certification provider (#1 in France).
